

SUPERTEX ULTRA COVERALL

WHITE

S - 4XL

SDS-60401-7

ABOUT THIS PRODUCT

The Supertex Ultra Coverall is engineered for superior protection and comfort, utilising a laminated microporous fabric with taped seams to form a robust barrier against harmful particulates and liquid splashes. It effectively guards against airborne particles, occasional chemical exposure, and biological hazards. The coverall is low-linting, featuring bound, taped seams that create an effective barrier against infectious agents. It is antistatic and includes elasticated cuffs, ankles, hood, and waist for a secure fit.

Designed for easy layering over clothing, it complies with EN ISO 14605, EN ISO 13982-1, and EN ISO 13034 standards, offering reliable protection against liquid splash, spray, and hazardous particles. The ergonomic design ensures unrestricted movement, comfort, and breathability, with a full zip front and storm flap for quick and easy wear. This coverall provides excellent protection against chemicals, biological hazards, and dust, making it ideal for use in hazardous environments.
